📒 PYP Workbook

Year 3 · Ages 7–8

Six transdisciplinary themes · Tuning In · Finding Out · Sorting Out · Taking Action · Reflection · Exit Cards

Name: _____

Class: _____

School: _____

Aligned with the IB PYP framework. Independent teacher resource, not official IB material.
Part of Letter Adventure – PYP Edition (Years 1–4).

👩‍🏫 Teacher Notes · Year 3

Learner focus (Ages 7–8): Explaining, comparing and short written answers.

How to use this workbook. Each theme follows the inquiry cycle: **1 Tuning In** (provocation, See–Think–Wonder, curiosity questions) → **2 Finding Out** (picture words, sorting, true/false, sequencing, counting, draw and label, think and write) → **3 Sorting Out** (graphic organiser and the big idea) → **4 Taking Action** (a small real action at home or school) → **5 Reflection** (I used to think… now I think…, feelings, learner profile) → **6 Exit Card** (3-2-1, quick checks, confidence rating; three different cut-out versions). The interactive app version reshuffles questions every time (🔀 New questions) and saves exit-card results per student for the teacher dashboard. Read every prompt aloud for English learners; accept drawn, spoken or written answers.

Theme and unit	Central idea	Key concepts	Teaching notes and assessment
🫀 **Who We Are** Amazing Body Systems	The human body is made of systems that work together to keep us alive and healthy.	Form, Connection, Causation	Do a pulse investigation: record resting and active pulse in a class table and bar chart. Use a life-size body outline; children add organs as they learn each system. Link to Aspire Zone / sports science: how athletes train their body systems. Assessment: children label four organs, name their system and explain one connection.
⛵ **Where We Are in Place and Time** Qatar Then and Now: Pearls to Progress	Discoveries and new technology change how people live, while heritage connects us to the past.	Change, Causation, Perspective	Visit the National Museum of Qatar, Al Zubarah Fort or Msheireb heritage houses. Build a long classroom timeline from the pearl era to today with photos. Invite an elder to talk about pearl diving or Bedouin life; children prepare questions. Assessment: children sequence 4 events and explain one cause of change with evidence.
🎤 **How We Express Ourselves** Poetry, Rhythm and Performance	People use rhythm, words and performance to communicate ideas, feelings and culture.	Form, Function, Perspective	Clap syllables daily; build a rhyme bank on the wall. Share Nabati poetry and poems from children's home cultures. Use two stars and a wish for peer feedback after performances. Assessment: children write a short poem with one simile and perform it with expression.

🧲 **How the World Works** Forces and Motion: Push, Pull and Go!	Forces act on objects to make them start, stop, speed up, slow down or change direction.	Causation, Function, Form	Run the ramp investigation; children record distances in a table and draw a bar chart. Explore magnets: test which classroom objects are magnetic and record predictions. Link to sport: forces in football (Aspire Academy) and falcon flight. Assessment: children plan a fair test, name the variable and explain the result using force words.
🪙 **How We Organize Ourselves** Markets, Money and Trade	People exchange goods and services to meet their needs and wants.	Form, Change, Responsibility	Run the barter game, then introduce class money for a market day. Visit Souq Waqif to observe goods, services and pricing. Practise adding prices and giving change with riyal coins and notes. Assessment: children classify needs/wants and goods/services and explain a spending choice.
💧 **Sharing the Planet** Water: Every Drop Counts	Water is a limited resource that all living things share and must protect.	Change, Connection, Responsibility	Do the jug-and-spoon demo, then a mini water cycle in a sealed bag on a sunny window. Learn how Kahramaa supplies desalinated water in Qatar. Children complete a one-day home water audit and graph results. Assessment: children draw and label the water cycle and explain two ways to conserve water.

Aligned with the IB PYP framework. Independent teacher resource, not official IB material.

🫀 Who We Are: Amazing Body Systems

Our big idea: My body has systems, like a team. They work together to keep me alive and healthy.

Central idea: The human body is made of systems that work together to keep us alive and healthy.

Lines of inquiry

1. The main body systems and their organs (form)
2. How body systems work together (connection)
3. How our habits affect our body systems (causation)

Key concepts: Form · Connection · Causation

Related concepts: Systems · Interdependence · Health

Learner profile: Knowledgeable · Inquirers · Balanced

Approaches to learning: Research: measuring pulse rate before and after exercise · Thinking: explaining cause and effect · Communication: labelling diagrams with scientific words

1 👀 Tuning In: The Body Orchestra

🫀 🫁 🧠 🦴 💪 🍽️

Play a short piece of orchestra music, then mute the drums. Something is missing! Show a life-size outline of a child on the floor and a model skeleton.

Teacher prompt: Ask: How is your body like an orchestra? What would happen if one system stopped working? Children trace a partner and guess where organs are.

See – Think – Wonder 🏃‍♀️ ➡️ 💓📈 🫁💨

👀 What do you notice happens to the runner's body?

I see...

💭 Which systems do you think are working hardest? Why?

I think...

🤔 What do you wonder about how the body works?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] How does the heart pump blood all around the body?
- [ ] How does the brain send messages so quickly?
- [ ] How many bones are in the human body?
- [ ] How do muscles make our bones move?
- [ ] How does the body fight germs?
- [ ] Why do we breathe faster when we exercise?
- [ ] What happens to food after we swallow it?
- [ ] Why do broken bones heal?
- [ ] Why do we get hiccups?
- [ ] Why do we need to sleep for our brain?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

skeleton
The skeleton supports and protects the body.

organ
The heart is an organ that pumps blood.

lungs
Our lungs take in oxygen when we breathe.

brain
The brain controls the whole body.

muscles
Muscles pull on bones to make them move.

digestion
Digestion breaks food into nutrients.

oxygen
Every cell in the body needs oxygen.

pulse
You can feel your pulse on your wrist.

nerves
Nerves carry messages to and from the brain.

blood vessels
Blood vessels carry blood around the body.

stomach
The stomach mixes food with juices.

system
A system is a group of parts that work together.

🧺 Sort it: Is this organ part of the circulatory/respiratory team or the digestive team?

Write or draw each item in the right column.

🩸 blood | 🌬️ windpipe | 🥣 stomach | ⬇️ food pipe | 💧 saliva | 🌀 small intestine | 🫁 lungs | ❤️ heart | 👅 tongue | 〰️ veins

❤️ Heart and lungs team	🍽️ Digestive team

👍 True or false? Circle one.

💀 The skeleton protects organs like the brain and heart.	True	False
💪 Muscles push bones; they never pull.	True	False
💓 Your pulse rate rises during exercise.	True	False
👄 Digestion begins in the mouth.	True	False
🫁 The lungs pump blood around the body.	True	False
⚡ Nerves carry messages to the brain.	True	False
⚙️ Body systems work alone and never help each other.	True	False
🦴 An adult skeleton has about 206 bones.	True	False

🔢 Put in order: The journey of food. Number the boxes.

☐ ⬇️
Food pipe: food slides down

☐ 🥣
Stomach: food is mixed

☐ 🦷
Mouth: teeth chew

☐ 🌀
Intestines: nutrients absorbed

🔎 Count and observe

Count the bones in this pile.

Answer: ☐

How many heartbeats in 10 seconds?

Answer: ☐

🖍️ Draw and label: Draw the outline of a body. Draw and label four organs in the right places.

Word bank: brain | heart | lungs | stomach | intestines | skeleton | muscles

✍️ Think and write

Explain how the heart and lungs work together when you play football.

Compare the skeletal system and the muscular system. How do they help each other?

3 🧩 Sorting Out: Body Systems Table

Choose an organ or part. Then write it under the system it belongs to.

💀 skull · 🦴 ribs · ❤️ heart · 🩸 blood vessels · 🫁 lungs · 🌬️ windpipe · 🧠 brain · ⚡ spinal cord nerves

🦴 Skeletal	❤️ Circulatory	🫁 Respiratory	🧠 Nervous

💡 The big idea in my own words

4 🤝 Taking Action: Body Systems Champions

- [ ] ⏱️ Measure my pulse before and after 2 minutes of skipping.
- [ ] 🥗 Plan a week of meals that help digestion (fibre and water).
- [ ] 😴 Track my sleep for a week and explain how it helps my brain.
- [ ] 🖼️ Create a fact poster about one body system.
- [ ] 👩‍🏫 Teach a younger class how bones and muscles work.
- [ ] 🤸 Start a class 10-minute movement break.

My plan: I will…

_____

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Measure your family's pulse at rest and after climbing stairs. Compare the results.

5 🪞 Reflection

Example: I used to think… my organs work alone. Now I think… body systems work together like a team.

⬅️ I used to think…

➡️ Now I think…

How do I feel about this unit? Circle one.

😀 🤩 😮 🤔 😐 ☹️

What helped me learn? Tick.

⛵ Where We Are in Place and Time: Qatar Then and Now: Pearls to Progress

Our big idea: New discoveries changed life in Qatar. Our heritage connects us to the past.

Central idea: Discoveries and new technology change how people live, while heritage connects us to the past.

Lines of inquiry

1. How people in Qatar lived in the pearl-diving era (form)
2. How the discovery of oil and gas changed life (change and causation)
3. Why people preserve heritage and traditions today (perspective)

Key concepts: Change · Causation · Perspective

Related concepts: Heritage · Chronology · Evidence

Learner profile: Inquirers · Knowledgeable · Open-minded

Approaches to learning: Research: using artefacts and photos as evidence · Thinking: putting events on a timeline · Communication: interviewing an elder

1 👀 Tuning In: The Pearl Diver's Box

🦪 ⛵ 🏚️ ➡️ 🛢️ 🏙️ 🚇

Pass around a diver's nose clip (fitaam), a weight stone, a basket and a pearl. Play a short recording of a traditional sea song (fijiri).

Teacher prompt: Ask: What could these objects tell us about life long ago? How sure can we be? What other evidence would help?

See – Think – Wonder 🏚️🐪🌴 | 🏙️🚗🏟️

👀 What do you notice in the two photos of Doha?

I see...

💭 What do you think caused these changes?

I think...

🤔 What do you wonder about Qatar's past and future?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] How long could pearl divers hold their breath?
- [ ] When was oil discovered in Qatar?
- [ ] What was school like for my grandparents?
- [ ] How do historians know what happened long ago?
- [ ] What did Bedouin families carry when they moved?
- [ ] Why did the pearl trade end?
- [ ] How did people get fresh water before desalination?
- [ ] Why do we still have dhow races?
- [ ] Why are old forts like Al Zubarah protected?
- [ ] How did wind towers work?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

heritage

Heritage is the history and traditions we pass on.

pearl diving

Pearl diving was the main job in Qatar long ago.

dhow

A dhow is a traditional wooden boat.

Bedouin

Bedouin families moved across the desert with their animals.

oil

Oil was discovered in Qatar in 1939.

artefact

An artefact is an object made by people long ago.

evidence

Photos and artefacts are evidence of the past.

timeline

A timeline shows events in order.

fort

Al Zubarah Fort is a UNESCO World Heritage Site.

wind tower

A wind tower (barjeel) cooled houses naturally.

tradition

Falconry is an old tradition in Qatar.

modern

Modern Doha has a metro and tall towers.

🧺 Sort it: Was this part of life before oil, or after oil?

Write or draw each item in the right column.

🪣 water from wells | 🌬️ wind towers for cooling | 🚰 desalination plants | ✈️ Hamad International Airport | 🎓 Education City | ❄️ air conditioning | 🐪 travel by camel caravan | 🦪 pearl diving | 🏟️ World Cup stadiums | 🏚️ houses of coral stone

🦪 Before oil	🛢️ After oil

👍 True or false? Circle one.

🦪 Pearl diving was once the main job in Qatar.	True	False
🛢️ Oil was discovered in Qatar in 1939.	True	False
🚇 Long ago, Qatar had a metro system.	True	False
🏺 Artefacts can be used as evidence about the past.	True	False
🏰 Al Zubarah is a UNESCO World Heritage Site.	True	False
🌬️ Wind towers used electricity to cool houses.	True	False
🦅 Traditions like falconry are still practised today.	True	False
📅 Change always happens in one day.	True	False

🔢 Put in order: Qatar's timeline. Number the boxes.

☐ 🛢️ Oil discovered (1939)

☐ 🇶🇦 Independence (1971)

☐ 🦪 Pearl diving era

☐ 🏟️ FIFA World Cup (2022)

🔎 Count and observe

The diver found these oysters. How many?

Answer: ☐

How many dhows are in the harbour?

Answer: ☐

🖍️ Draw and label: Draw a Qatari house from long ago and a modern home. Label the differences.

Word bank: wind tower | coral stone | courtyard | air conditioner | glass | tower | car

✍️ Think and write

Explain how the discovery of oil changed homes in Qatar.

Compare a pearl diver's day with an engineer's day today.

3 🧩 Sorting Out: Then and Now Comparison Chart

Choose a fact. Then write it under the part of life it belongs to.

🦪 pearl diver | 👷 engineer | 🏚️ coral-stone house | 🏢 apartment tower | 🐪 camel caravan | 🚇 metro train | 🪣 desert well | 🚰 desalination plant

💼 Jobs	🏠 Homes	🚗 Travel	💧 Water

💡 The big idea in my own words

4 🤝 Taking Action: Heritage Keepers

- [ ] 🎙️ Interview a grandparent about life before modern Doha and record it.
- [ ] 🏺 Create a class museum of family artefacts with labels.
- [ ] 📘 Make a then-and-now booklet for younger students.
- [ ] 🕌 Visit Souq Waqif or Katara and note old and new things.
- [ ] 🎲 Learn a traditional game (like dama or khabsa) and teach it.
- [ ] ✉️ Write a letter to the future about today's Qatar.

My plan: I will…

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Find one old object or photo at home. What does it tell you about the past?

5 🪞 Reflection

Example: I used to think… the past is just old stories. Now I think… evidence helps us understand how and why life changed.

⬅️ I used to think…

➡️ Now I think…

How do I feel about this unit? Circle one.

😀 🤩 😮 🤔 😐 😟

🎤 How We Express Ourselves: Poetry, Rhythm and Performance

Our big idea: Poems, songs and performances help people share ideas and feelings.
Central idea: People use rhythm, words and performance to communicate ideas, feelings and culture.

Lines of inquiry

1. Features of poems: rhythm, rhyme and imagery (form)
2. How performers use voice and body to express meaning (function)
3. How poetry and music reflect different cultures (perspective)

Key concepts: Form · Function · Perspective

Related concepts: Rhythm · Expression · Audience

Learner profile: Communicators · Risk-takers · Reflective

Approaches to learning: Communication: performing with expression · Thinking: analysing word choice · Social: giving kind and helpful feedback

1 👀 Tuning In: The Beat of Words

🥁 📝 🎭 🎵 🪘

Children clap the rhythm of their names. Then listen to a short poem read flat and then read with expression. Show a clip of a Nabati poem being recited.
Teacher prompt: Ask: Which reading did you prefer? Why? What did the reader do with their voice and face?

See – Think – Wonder 🎙️🧒 + 👏👏👏

👀 What do you notice the performer is doing?

I see...

💭 How do you think the audience feels? Why?

I think...

🤔 What do you wonder about poems and performing?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why do some poems rhyme and others do not?
- [ ] How do poets choose their words?
- [ ] What is Nabati poetry?
- [ ] Why do songs get stuck in our heads?
- [ ] How can my voice show feelings?
- [ ] Why do poems have rhythm?
- [ ] How do actors remember their lines?
- [ ] What makes an audience clap?
- [ ] Can a poem be just three lines?
- [ ] How are poems in Arabic and English different?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

rhyme

Cat and hat rhyme because they end with the same sound.

rhythm

Rhythm is the beat in a poem or song.

verse

A verse is a group of lines in a poem.

simile

As fast as a cheetah is a simile.

syllable

Clap each syllable: pa-per has two.

audience

The audience watched the show.

expression

Read with expression to show feeling.

volume

Change your volume: loud or soft.

haiku

A haiku is a short poem with 5, 7, 5 syllables.

performance

Our class gave a poetry performance.

imagery

Imagery helps you picture the poem.

feedback

Kind feedback helps performers improve.

🧺 Sort it: Do these two words rhyme?

Write or draw each item in the right column.

⛵ boat / coat · 💡 light / night · ⭐ star / sun · 📖 book / pen · 🎵 song / dance · 🏜️ desert / camel · 🏖️ sand / hand · 🌙 moon / spoon · 🌊 wave / sky · 🌊 sea / tree

🔔 Rhyme	❌ Do not rhyme

👍 True or false? Circle one.

📜 All poems must rhyme.	True	False
🌸 A haiku has three lines.	True	False
🥁 Rhythm is the beat of a poem.	True	False
🦁 'As brave as a lion' is a simile.	True	False
😐 Performers should always speak in one flat voice.	True	False
🐪 Nabati poetry is a tradition in the Gulf.	True	False
🐘 The word 'elephant' has one syllable.	True	False
😮 Facial expressions help show meaning.	True	False

🔢 Put in order: Prepare a performance. Number the boxes.

☐ 🎭 Practise with expression

☐ 🎤 Perform for an audience

☐ 📜 Choose a poem

☐ 💬 Reflect on feedback

🔎 Count and observe

Count the claps in this rhythm.

👏 👏 👏 👏 👏 👏 👏 👏 👏 👏 👏 👏

Answer: ☐

How many drum beats?

🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁 🥁

Answer: ☐

🖍️ Draw and label: Draw a picture for a poem about the desert or the sea. Label the images in the poem.

Word bank: sun | dunes | waves | dhow | palm tree | moon | stars

✍️ Think and write

Explain why reading with expression changes how a poem feels.

Compare a rhyming poem and a haiku. How are they different?

3 🧩 Sorting Out: Performance Toolkit

Choose a performance tip. Then write it under the tool it uses.

🔊 speak louder for excitement · ⏸️ pause before a surprise · 🤫 whisper a secret line · 😀 smile on happy lines · 👀 look at the audience · 😳 raise eyebrows in surprise · 👐 use hand gestures · 🧍 stand tall and still

🗣️ Voice	😮 Face	🙌 Body

💡 The big idea in my own words

4 🤝 Taking Action: Poetry in Action

- [ ] 🎤 Perform a poem at assembly.
- [ ] 💌 Write a poem for someone who helps me.
- [ ] 🎙️ Record a family member reciting a poem in our home language.
- [ ] 🧱 Create a class poetry wall.
- [ ] 🌴 Write a haiku about Qatar's nature.
- [ ] 🥫 Make a rhythm band with recycled objects.

My plan: I will...

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Ask your family for a poem, song or saying from your culture. What does it mean?

5 🪞 Reflection

Example: I used to think… a poem is just words that rhyme. Now I think… poems use rhythm, images and performance to share meaning.

⬅️ I used to think…

➡️ Now I think…

🧲 How the World Works: Forces and Motion: Push, Pull and Go!

Our big idea: Forces are pushes and pulls. They make things move, stop and turn.
Central idea: Forces act on objects to make them start, stop, speed up, slow down or change direction.

Lines of inquiry

1. Types of forces: push, pull, gravity, friction and magnetism (form)
2. How forces change the way objects move (causation)
3. How people use forces in machines, sport and daily life (function)

Key concepts: Causation · Function · Form
Related concepts: Energy · Motion · Investigation
Learner profile: Thinkers · Inquirers · Risk-takers

Approaches to learning: Research: planning a fair test with one variable · Thinking: predicting and explaining results · Self-management: measuring accurately

1 👀 Tuning In: The Great Car Race

🚗 🛝 🧲 ⚽ 🪁

Set up a ramp. Roll a toy car down on carpet, then on tiles, then on sand. Which surface lets it go furthest? Show a magnet picking up paper clips through paper.
Teacher prompt: Ask: What made the car stop? Why did it go further on one surface? How can a magnet move something without touching it?

See – Think – Wonder ⚽ ➡️ 🥅 🍎 ⬇️

👀 What do you notice about how the ball and the apple move?

I see...

💭 What force do you think is acting on each one?

I think...

🤔 What do you wonder about forces?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why do things fall down and not up?
- [ ] How do magnets work?
- [ ] How does a parachute slow someone down?
- [ ] Is there gravity in space?
- [ ] How do cranes lift heavy things?
- [ ] Why is it hard to walk on ice?
- [ ] Why do cars have brakes?
- [ ] Why do heavy ships float?
- [ ] Why does a ball roll further on grass than on sand?
- [ ] Why do football boots have studs?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

force

A force is a push or a pull.

push

I push the door to open it.

pull

I pull the rope in tug of war.

gravity

Gravity pulls objects towards the Earth.

friction

Friction slows moving things down.

magnet

A magnet attracts iron and steel.

attract

Opposite poles of magnets attract.

repel

Same poles of magnets repel each other.

surface

A rough surface makes more friction.

speed

A bigger push gives more speed.

air resistance

Air resistance slows a parachute.

ramp

We rolled the car down a ramp.

🧺 Sort it: Is this action mainly a push or a pull?

Write or draw each item in the right column.

🛒 push a trolley · ⚾ throw a ball · 🗃️ open a drawer · 🪁 fly a kite string · 🎒 zip a bag · 🛻 pull a wagon · 🔘 press a button · ⚽ kick a ball · 🍎 pick an apple · 🟤 squeeze clay

🤳 Push	🦵 Pull

👍 True or false? Circle one.

💥 A force is a push or a pull.	True	False
🍎 Gravity pulls objects up into the sky.	True	False
🟫 Friction is greater on rough surfaces.	True	False
🥫 Magnets attract all metals, including aluminium cans.	True	False
🧲 Same poles of two magnets repel.	True	False
🪂 A parachute uses air resistance to slow down.	True	False
🟤 Forces can change the shape of objects.	True	False
🛝 Objects keep moving forever with no friction on Earth.	True	False

🔢 Put in order: Plan a fair test. Number the boxes.

▢ 📐 Keep the car and ramp the same

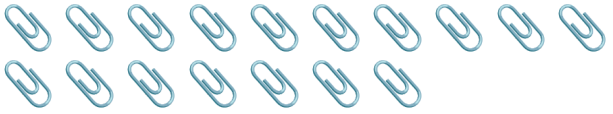

▢ 🟫 Change only the surface

▢ ❓ Ask: which surface has most friction?

▢ 📏 Measure distance and compare

🔎 Count and observe

How many paper clips did the magnet pick up?

Answer: ☐

The car rolled this many tiles. How many?

Answer: ☐

🖍️ Draw and label: Draw a playground. Use arrows to show forces. Label each force.

Word bank: push | pull | gravity | friction | air resistance | magnet

✍️ Think and write

Explain why the car went further on tiles than on carpet.

Compare gravity and magnetism. How are they alike?

3 🧩 Sorting Out: Force Finder Chart

Choose an example. Then write it under the force that matters most.

🍎 an apple falls · 🌧️ rain falls down · 🚲 bike brakes · 👟 shoes grip the floor · 🧲 fridge magnet sticks · 🧭 compass points north · 🪂 parachute slows · 🦅 falcon spreads wings

🌍 Gravity	🛑 Friction	🧲 Magnetism	🪂 Air resistance

💡 The big idea in my own words

4 🤝 Taking Action: Force Engineers

- [ ] 🥚 Design a parachute that falls slowly for an egg.
- [ ] 🎢 Build a marble run and explain the forces.
- [ ] 🛝 Suggest safer playground surfaces using friction.
- [ ] 🎣 Make a magnet fishing game for younger kids.
- [ ] 🚗 Teach my family why seatbelts matter.
- [ ] 👟 Test which shoes have the best grip.

My plan: I will…

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Find five pushes and five pulls at home. Which one needed the most force?

5 🪞 Reflection

Example: I used to think… things just move by themselves. Now I think… a force always causes a change in motion.

⬅️ I used to think…

➡️ Now I think…

🪙 How We Organize Ourselves: Markets, Money and Trade

Our big idea: People buy, sell and trade things to get what they need and want.
Central idea: People exchange goods and services to meet their needs and wants.

Lines of inquiry

1. The difference between needs and wants, goods and services (form)
2. How trade and money have changed from bartering to cards (change)
3. How we make responsible choices with money (responsibility)

Key concepts: Form · Change · Responsibility

Related concepts: Exchange · Value · Choice

Learner profile: Thinkers · Principled · Communicators

Approaches to learning: Thinking: comparing prices and making choices · Social: negotiating in a class market · Self-management: planning a budget

1 👀 Tuning In: The Souq Swap

🛍️ 🪙 🧺 🌶️ 💳 🐫

Give each group a bag of items (pencils, stickers, dates, erasers) and no money. Groups must trade to get what they need. Show photos of Souq Waqif old and new.
Teacher prompt: Ask: Was trading easy or hard? Why did people invent money? What makes something valuable?

See – Think – Wonder 🐚 ➡️ 🪙 ➡️ 💵 ➡️ 💳 ➡️ 📱

👀 What do you notice about how people paid over time?

I see...

💭 Why do you think money kept changing?

I think...

🤔 What do you wonder about money and trade?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why did people stop bartering?
- [ ] Who decides how much things cost?
- [ ] Why is gold valuable?
- [ ] How does a bank keep money safe?
- [ ] What did traders sell in old Doha souqs?
- [ ] Why are some things more expensive in summer?
- [ ] What is the difference between a need and a want?
- [ ] How do shops make a profit?
- [ ] Why should I save money?
- [ ] Where does Qatari riyal money come from?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

goods

Goods are things we can buy, like shoes.

services

A haircut is a service someone does for us.

need

Water is a need; we cannot live without it.

want

A video game is a want, not a need.

barter

To barter means to swap goods without money.

riyal

Qatar's money is the riyal.

price

The price tells us how much something costs.

budget

A budget is a plan for spending money.

save

I save money in my piggy bank.

profit

Profit is the money left after costs.

trade

Countries trade goods across the sea.

souq

Souq Waqif is a famous market in Doha.

🧺 Sort it: Is this a need or a want?

Write or draw each item in the right column.

🏠 a home · 💊 medicine when sick · 🎮 video game · 👟 designer shoes · ⌚ smartwatch · 🍬 sweets · 🥗 healthy food · 💧 water · 🎡 theme park ticket · 👕 clothes

💧 Need	🎮 Want

👍 True or false? Circle one.

🔄 Bartering means swapping goods without money.	True	False
🎮 A want is something we cannot live without.	True	False
✂️ A haircut is a service.	True	False
💵 The money of Qatar is the riyal.	True	False
📝 A budget helps us plan our spending.	True	False
🏷️ Prices never change.	True	False
🦪 Long ago, pearls were traded from Qatar.	True	False
🐷 Saving means spending all your money now.	True	False

🔢 Put in order: History of money. Number the boxes.

☐ 🪙 Shells and coins

☐ 💵 Paper notes

☐ 🔄 Bartering

☐ 📱 Cards and phones

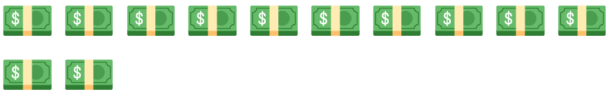

🔎 Count and observe

How many riyal coins are in the jar?

Answer: ☐

How many notes?

Answer: ☐

🖍️ Draw and label: Design a stall for a class market. Label your goods and prices.

Word bank: goods | price | sign | seller | customer | money | profit

✍️ Think and write

Explain the difference between a need and a want with two examples.

Why was bartering difficult? Give a reason.

3 🧩 Sorting Out: Goods or Services?

Choose an example. Then write it under goods or services.

⚽ a football · 🍞 a loaf of bread · 📕 a book · 👟 a pair of shoes · 🚕 a taxi ride · 🦷 a dentist check-up · 🔧 fixing a car · 👩‍🏫 a teacher's lesson

📦 Goods (things)	🛠️ Services (jobs done for us)

💡 The big idea in my own words

4 🤝 Taking Action: Smart Spenders

- [ ] ❤️ Run a class market and give profits to charity.
- [ ] 🐷 Make a savings plan for something I want.
- [ ] ⚖️ Compare prices of one item in two shops.
- [ ] 📝 Help my family write a shopping list of needs first.
- [ ] 🔄 Swap toys with friends instead of buying new ones.
- [ ] 🎙️ Interview a shopkeeper at Souq Waqif.

My plan: I will...

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** With your family, sort this week's shopping into needs and wants.

5 🪞 Reflection

Example: I used to think… money is just for buying toys. Now I think… money is a tool for exchange and we should use it wisely.

⬅️ I used to think…

➡️ Now I think…

How do I feel about this unit? Circle one.

💧 Sharing the Planet: Water: Every Drop Counts

Our big idea: All living things share water. There is not much fresh water, so we must protect it.

Central idea: Water is a limited resource that all living things share and must protect.

Lines of inquiry

1. How the water cycle moves water around the Earth (change)
2. Where our water comes from in a desert country like Qatar (connection)
3. How we can use water responsibly (responsibility)

Key concepts: Change · Connection · Responsibility

Related concepts: Resources · Cycles · Conservation

Learner profile: Caring · Thinkers · Principled

Approaches to learning: Research: measuring water use at home · Thinking: explaining the water cycle · Communication: making a persuasive poster

1 👀 Tuning In: The Last Drop

🌍 💧 🧊 🌊 🚰

Fill a big jug with water: all the water on Earth. Take out one small spoon: the fresh water we can use. Show a photo of a desalination plant in Qatar.

Teacher prompt: Ask: Why is so little water usable? Where does Qatar get its water? What would happen if we wasted it?

See – Think – Wonder ☀️ ➡️ 🌊 ➡️ ☁️ ➡️ 🌧️

👀 What do you notice in this picture of the water cycle?

I see...

💭 What do you think makes the water go up into the clouds?

I think...

🤔 What do you wonder about water?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why is sea water salty?
- [ ] How does desalination turn salt water into fresh water?
- [ ] Where does rain come from?
- [ ] How much water do I use in one day?
- [ ] Why does Qatar have so little rain?
- [ ] How do plants in the desert survive?
- [ ] Is the water we drink today the same water dinosaurs drank?
- [ ] Why are some people in the world without clean water?
- [ ] What happens to water after it goes down the drain?
- [ ] How did people in old Qatar find water?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

evaporation
Evaporation is when the sun warms water and it turns into vapour.

condensation
Condensation is when vapour cools and forms clouds.

precipitation
Precipitation is rain, snow or hail falling from clouds.

collection
Water collects in seas, lakes and under the ground.

fresh water
Fresh water is not salty; we can drink it.

desalination
Desalination removes salt from sea water.

conserve
We conserve water by using only what we need.

pollution
Oil and litter cause water pollution.

groundwater
Groundwater is stored under the ground.

irrigation
Drip irrigation gives plants water slowly.

vapour
Water vapour is water as a gas.

resource
Water is a precious natural resource.

🧺 Sort it: Does this action save water or waste water?

Write or draw each item in the right column.

🔧 fix a dripping tap · 🌙 water plants in the evening · 🧯 leave the hose running · 🛁 long baths every day · 💦 ignore a leaking pipe · 🪣 pour leftover water away · 🚿 take a short shower · 🪥 turn off the tap while brushing · ☀️ water plants at midday · 🌱 use drip irrigation

✅ Saves water	❌ Wastes water

👍 True or false? Circle one.

🌊 Most of the water on Earth is salty.	True	False
🏞️ Qatar gets most of its drinking water from rivers.	True	False
♨️ Evaporation happens when water is heated.	True	False
☁️ Clouds are made of tiny water droplets.	True	False
🧂 Desalination adds salt to water.	True	False
🔄 The water cycle never stops.	True	False
🚰 A dripping tap wastes no water.	True	False
🌱 Drip irrigation saves water on farms.	True	False

🔢 Put in order: The water cycle. Number the boxes.

☐ ☁️ Condensation	☐ 🌧️ Precipitation	☐ ♨️ Evaporation	☐ 🌊 Collection

🔎 Count and observe

How many drops fell from the leaking tap?

Answer: ☐

How many buckets of water for the garden?

Answer: ☐

🖍️ Draw and label: Draw the water cycle over Qatar. Use arrows and label each stage.

Word bank: sun | sea | evaporation | condensation | clouds | precipitation | collection

✍️ Think and write

Explain the water cycle in four steps.

Why does a desert country like Qatar need desalination?

3 🧩 Sorting Out: Water Cycle Diagram

Choose a description. Then write it under the stage of the water cycle.

☀️ sun heats the sea | 💨 puddle dries up | ☁️ vapour cools into clouds | 🥛 drops on a cold glass | 🌧️ rain falls | 🧊 hail falls | 🌊 water fills the sea | 🕳️ water soaks into the ground

♨️ Evaporation	☁️ Condensation	🌧️ Precipitation	🌊 Collection

💡 The big idea in my own words

4 🤝 Taking Action: Water Guardians

- [ ] 📊 Do a home water audit and cut our use.
- [ ] 🖼️ Make posters for school taps: Turn me off!
- [ ] 🪴 Collect AC condensation water for plants.
- [ ] 🔧 Report dripping taps at school.
- [ ] 🎤 Present water-saving tips at assembly.
- [ ] 🧴 Use a reusable water bottle every day.

My plan: I will...

_____

_____

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Count how many times your family uses water in one evening. Where could you save?

5 🪞 Reflection

Example: I used to think... water never runs out. Now I think... fresh water is limited and we must conserve it.

⬅️ I used to think...

➡️ Now I think...
