📒 PYP Workbook

Year 4 · Ages 8–9

Six transdisciplinary themes · Tuning In · Finding Out · Sorting Out · Taking Action · Reflection · Exit Cards

Name: _____

Class: _____

School: _____

Aligned with the IB PYP framework. Independent teacher resource, not official IB material.
Part of Letter Adventure – PYP Edition (Years 1–4).

👩‍🏫 Teacher Notes · Year 4

Learner focus (Ages 8–9): Research questions, cause and effect, and perspectives.

How to use this workbook. Each theme follows the inquiry cycle: **1 Tuning In** (provocation, See–Think–Wonder, curiosity questions) → **2 Finding Out** (picture words, sorting, true/false, sequencing, counting, draw and label, think and write) → **3 Sorting Out** (graphic organiser and the big idea) → **4 Taking Action** (a small real action at home or school) → **5 Reflection** (I used to think… now I think…, feelings, learner profile) → **6 Exit Card** (3-2-1, quick checks, confidence rating; three different cut-out versions). The interactive app version reshuffles questions every time (🔀 New questions) and saves exit-card results per student for the teacher dashboard. Read every prompt aloud for English learners; accept drawn, spoken or written answers.

Theme and unit	Central idea	Key concepts	Teaching notes and assessment
⚖️ **Who We Are** Rights, Responsibilities and Respect	All children have rights, and with these rights come responsibilities towards others.	Perspective, Connection, Responsibility	Use the child-friendly UNCRC; groups each explore and present a few articles. Debrief the unfair snack activity sensitively; link feelings to justice. Explore Education Above All (Doha) as a local example of protecting the right to learn. Assessment: children explain the link between a right and a responsibility and propose an action.
🧭 **Where We Are in Place and Time** Explorers, Journeys and Migration	People explore and migrate for different reasons, and their journeys change places, cultures and themselves.	Causation, Change, Perspective	Build a class world map of family origins with string to Qatar. Read extracts from Ibn Battuta's Rihla (child-friendly version) as a primary source. Visit the Museum of Islamic Art to explore navigation instruments like the astrolabe. Assessment: children explain push/pull factors and the effects of a journey from two perspectives.

📺 **How We Express Ourselves** Media Messages and Persuasion	Media messages are created to inform, entertain or persuade, and we can think critically about them.	Function, Form, Perspective	Collect real print adverts (age-appropriate) for children to analyse in groups. Teach a simple fact-check routine: Who made it? Why? What is the evidence? What do others say? Compare coverage of a Qatar event (e.g. National Day) in two child-friendly news sources. Assessment: children identify techniques in an advert and create a fair persuasive message.
⚡ **How the World Works** Energy: Sources, Uses and Choices	Energy comes from different sources, and the choices we make about energy affect the planet.	Change, Causation, Responsibility	Build simple circuits with batteries, wires and bulbs; test conductors and insulators. Research Qatar's National Vision 2030 and the Al Kharsaah solar plant. Children do a classroom energy audit over a week and graph the results. Assessment: children classify energy sources, explain a transformation and argue a sustainable choice.
🏛️ **How We Organize Ourselves** Rules, Laws and Leadership	Communities create systems of leadership, rules and laws to make decisions and live together fairly.	Function, Form, Responsibility	Run the island survival simulation, then debrief how leadership and rules emerged. Hold a mock student council election with speeches and a secret ballot. Introduce Qatar's governance simply: the Emir, Council of Ministers and Shura Council; and the value of shura (consultation). Assessment: children evaluate a rule (purpose, impact, fairness) and present a proposal.
🌿 **Sharing the Planet** Ecosystems in Balance	Living things in an ecosystem depend on each other, and human actions can upset or restore the balance.	Connection, Causation, Responsibility	Play the string food-web game, then build a wall food web for a Qatar ecosystem. Visit Al Thakhira mangroves or Al Reem Biosphere Reserve if possible, or use virtual tours. Study the Arabian oryx conservation story as a case study of restoration. Assessment: children build a food web, predict effects of change and propose a protection action.

Aligned with the IB PYP framework. Independent teacher resource, not official IB material.

⚖️ Who We Are: Rights, Responsibilities and Respect

Our big idea: Every child has rights. Our rights come with responsibilities to respect others.

Central idea: All children have rights, and with these rights come responsibilities towards others.

Lines of inquiry

1. What children's rights are and why they matter (perspective)
2. How rights and responsibilities are connected (connection)
3. How our actions can protect the rights of others (responsibility)

Key concepts: Perspective · Connection · Responsibility

Related concepts: Rights · Justice · Equality

Learner profile: Principled · Caring · Open-minded

Approaches to learning: Thinking: evaluating fair and unfair situations · Research: using the UN Convention on the Rights of the Child (child-friendly version) · Social: respectful debate

1 👀 Tuning In: The Unfair Snack

Without warning, give only half the class a snack. Then show photos of children around the world: at school, working, and fetching water.

Teacher prompt: Ask: How did it feel to be left out? Was it fair? Who decides what every child should have? What could we do?

See – Think – Wonder 🧒📚🏫 | 🧒🧱🏗️

👀 What do you notice about these two children's days?

I see...

💭 What rights do you think each child has, or is missing?

I think...

🤔 What questions does this raise for you?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Who decided what children's rights are?
- [ ] Why do some children not go to school?
- [ ] Is a right the same as a want?
- [ ] What happens when someone's rights are not respected?
- [ ] Do adults and children have the same rights?
- [ ] How are rights protected in Qatar?
- [ ] What responsibilities come with the right to play?
- [ ] How can we tell if a rule is fair?
- [ ] Why do some countries have child labour?
- [ ] What can one child do to help others' rights?

💬 My own question

Starters: I wonder why... · I wonder how... · What if...? · How do we know...?

---

2 🔍 Finding Out: picture words

right

Every child has the right to education.

responsibility

With the right to learn comes the responsibility to let others learn.

respect

We show respect by listening to different opinions.

equality

Equality means everyone is treated with the same fairness.

justice

Justice means fixing what is unfair.

convention

The UN Convention on the Rights of the Child lists 54 articles.

discrimination

Discrimination is treating someone unfairly because of who they are.

protection

Children have the right to protection from harm.

opinion

Children have the right to share their opinion.

identity

Every child has the right to a name and identity.

advocate

An advocate speaks up for others.

empathy

Empathy means understanding how others feel.

🧺 Sort it: Is this a right or a responsibility?

Write or draw each item in the right column.

🏥 to have healthcare | 💭 to share my opinion | 🤫 to let others learn | 🥗 to look after my health | 🪑 to care for school property | 🧍‍♂️🧍 to include everyone in games | 🛡️ to be safe from harm | 🏫 to go to school | ⚖️ to treat people fairly | ⚽ to play and rest

✅ Right	🤝 Responsibility

👍 True or false? Circle one.

🌍 Every child in the world has the same rights under the UN Convention.	True	False
🎮 Rights are the same as wants.	True	False
🤝 Rights come with responsibilities.	True	False
💭 Children have no right to share their opinion.	True	False
🚫 Discrimination means treating people unfairly.	True	False
📚 Education Above All is a foundation based in Qatar that helps children learn.	True	False
⚽ Only some children have the right to play.	True	False
💛 Empathy helps us understand other perspectives.	True	False

🔢 Put in order: Resolve a conflict fairly. Number the boxes.

☐ 🗣️ Each person explains their view

☐ 💡 Brainstorm fair solutions

☐ 🛑 Stop and calm down

☐ 🤝 Agree and check later

🔎 Count and observe

A group studied this many articles. How many?

Answer: ☐

How many children voted in the class survey?

Answer: ☐

🖍️ Draw and label: Design a poster about one child's right. Label the right and the matching responsibility.

Word bank: right | responsibility | respect | slogan | equality | action

✍️ Think and write

What is the effect when a child is denied the right to education? Explain two effects.

Choose a right. Describe it from a child's and a parent's perspective.

Can two rights clash? Give an example and suggest a fair solution.

3 🧩 Sorting Out: Rights and Responsibilities Matching Chart

Choose a responsibility. Then write it under the right it protects.

🤫 keep quiet when others work | 📖 share books and resources | 🦺 follow safety rules | 🚨 report bullying | 👂 listen without interrupting | 💭 respect different opinions | 👫 include others in games | 🏅 play fairly and safely

📚 Right to learn	🛡️ Right to be safe	🗣️ Right to be heard	⚽ Right to play

💡 The big idea in my own words

4 🤝 Taking Action: Rights Advocates

- [ ] 📜 Create a class charter of rights and responsibilities.
- [ ] 🛑 Lead an anti-bullying awareness day.
- [ ] 🤝 Make a buddy system for new students.
- [ ] 📚 Organise a book drive for children without books.
- [ ] ✉️ Write to a local leader about a children's issue.
- [ ] 🔎 Research a charity and present how it protects rights.

My plan: I will…

_____

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Discuss with your family: Which right is most important to you, and what responsibility goes with it?

5 🪞 Reflection

Example: I used to think... rights are things I am allowed to have. Now I think... rights belong to everyone and I must protect others' rights too.

⬅️ I used to think...

➡️ Now I think...

How do I feel about this unit? Circle one.

Attribute	🌱 Not yet	🌿 Sometimes	🌳 Yes, I did!
⚖️ **Principled**: I am fair and honest.			
💛 **Caring**: I help and care for others.			
👐 **Open-minded**: I listen to other ideas.			

I showed this when I...

6 🎟️ Exit Cards: cut out and hand in (three versions)

✂ - - -

🧭 Where We Are in Place and Time: Explorers, Journeys and Migration

Our big idea: People travel and move for many reasons. Their journeys change places and cultures.

Central idea: People explore and migrate for different reasons, and their journeys change places, cultures and themselves.

Lines of inquiry

1. Reasons why people explore and migrate: push and pull factors (causation)
2. How famous journeys, like Ibn Battuta's, changed understanding of the world (change)
3. How migration shapes communities like Qatar's today (perspective)

Key concepts: Causation · Change · Perspective

Related concepts: Migration · Exploration · Identity

Learner profile: Risk-takers · Open-minded · Inquirers

Approaches to learning: Research: using maps and primary sources · Thinking: analysing push and pull factors · Communication: interviewing and presenting family journeys

1 👀 Tuning In: The Mystery Suitcase

Open a suitcase with a passport, a family photo, a map, a compass, a spice jar and a letter in another language. Mark on a world map where each student's family comes from.

Teacher prompt: Ask: Who might own this suitcase? Why might they be travelling? What would you pack if you moved to a new country?

See – Think – Wonder 🗺️📍📍📍➡️🇶🇦

👀 What do you notice about where our families come from?	💭 Why do you think so many people have come to Qatar?	🤔 What questions do you have about journeys and migration?
I see...	I think...	I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why did Ibn Battuta travel for nearly 30 years?
- [ ] What pushes people to leave their homes?
- [ ] What pulls people to a new country?
- [ ] How did explorers navigate before GPS?
- [ ] How does moving change a person's identity?
- [ ] Why do birds migrate?
- [ ] How did the Silk Road connect cultures?
- [ ] What challenges do migrants face in a new place?
- [ ] How has migration shaped Qatar's population?
- [ ] What did explorers get wrong about the places they visited?

💬 My own question

Starters: I wonder why... · I wonder how... · What if...? · How do we know...?

---

2 🔍 Finding Out: picture words

migration
Migration is moving from one place to live in another.

explorer
Ibn Battuta was an explorer from Morocco.

push factor
War or drought can be a push factor.

pull factor
Jobs and safety can be pull factors.

navigation
Arab sailors used stars for navigation.

trade route
The Silk Road was a famous trade route.

primary source
A diary written at the time is a primary source.

culture
Migrants bring food, language and culture.

refugee
A refugee is forced to leave home to be safe.

expatriate
Many expatriates live and work in Qatar.

astrolabe
The astrolabe helped sailors find their position.

diversity
Qatar's diversity comes from many nationalities.

🧺 Sort it: Is this a push factor or a pull factor?

Write or draw each item in the right column.

🚫 no jobs · 🌪️ natural disaster · 💼 job opportunities · 👨‍👩‍👧 family already there · 🕊️ freedom · 🛡️ safety · 🏜️ drought · 💥 war or conflict · 🏥 better hospitals · ⚠️ unsafe area

⬅️ Push (reasons to leave)	➡️ Pull (reasons to come)

👍 True or false? Circle one.

🧭 Ibn Battuta travelled more than 100,000 km in the 1300s.	True	False
⬅️ Push factors are reasons that attract people to a place.	True	False
🌍 Most of Qatar's population was born in other countries.	True	False
📜 A diary written during a journey is a primary source.	True	False
🗺️ Explorers always described places accurately and fairly.	True	False
⭐ Arab sailors used the stars and the astrolabe to navigate.	True	False
📅 Migration only happened in modern times.	True	False
🍛 Migrants can bring new foods and languages to a country.	True	False

🔢 Put in order: Ibn Battuta's journey (simplified). Number the boxes.

☐ 🕋 Pilgrimage to Makkah

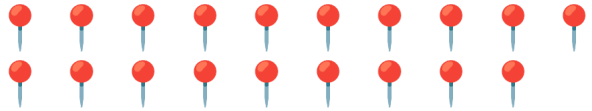

☐ 🐉 Travels to India and China

☐ 🇲🇦 Leaves Tangier, Morocco (1325)

☐ 📖 Returns and writes the Rihla

🔎 Count and observe

Our class map shows this many home countries. How many?

Answer: ☐

How many suitcases at the airport?

Answer: ☐

🖍️ Draw and label: Draw a map of a famous journey or your family's journey. Label start, stops and reasons.

Word bank: start | route | stop | destination | push factor | pull factor | compass

✍️ Think and write

Explain two push factors and two pull factors for someone moving to Qatar.

How might a migrant child feel in their first week at a new school? Describe two perspectives.

What was one effect of Ibn Battuta's journey on how people understood the world?

3 🧩 Sorting Out: Journey Cause-and-Effect Chart

Choose an event. Then write it under whether it is a cause, the journey, or an effect.

🏜️ drought ruins farms | 💼 new jobs in Qatar | ⛵ sail by dhow using stars | ✈️ fly across continents | 🐪 cross the desert by caravan | 🍛 new foods in local markets | 🏫 a diverse school community | 🗺️ maps of the world improve

❓ Cause (why)	🧭 Journey (how)	🔁 Effect (what changed)

💡 The big idea in my own words

4 🤝 Taking Action: Journey Storytellers

- [ ] 🎙️ Interview a family member about their migration story and present it.
- [ ] 📘 Create a welcome guide for new students arriving in Qatar.
- [ ] 🍲 Organise an international food and culture day.
- [ ] 🗺️ Make a class map of our families' journeys.
- [ ] 🎒 Collect items for refugee children through a charity.
- [ ] 📔 Write a diary as an explorer using real facts.

My plan: I will...

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Ask your family: Where have our family members lived, and why did they move?

5 🪞 Reflection

Example: I used to think… people move only for holidays. Now I think… people migrate for many reasons, and it changes them and the places they go.

⬅️ I used to think…

➡️ Now I think…

How do I feel about this unit? Circle one.

📺 How We Express Ourselves: Media Messages and Persuasion

Our big idea: Adverts and media try to inform, entertain or persuade us. We can think carefully about them.

Central idea: Media messages are created to inform, entertain or persuade, and we can think critically about them.

Lines of inquiry

1. Different types of media and their purposes (function)
2. Techniques advertisers use to persuade (form)
3. How to evaluate media messages from different perspectives (perspective)

Key concepts: Function · Form · Perspective

Related concepts: Persuasion · Bias · Audience

Learner profile: Thinkers · Communicators · Reflective

Approaches to learning: Thinking: identifying bias and fact vs opinion · Communication: creating a persuasive message · Research: checking information with several sources

1 👀 Tuning In: The Too-Good-to-Be-True Advert

Show a made-up advert: 'SuperJuice makes you run faster and get top marks! 9 out of 10 kids agree!' Then show the ingredients label: mostly sugar.

Teacher prompt: Ask: What is the advert trying to make you do? Which claims can be checked? Who made it, and why?

See – Think – Wonder 📱 ❗ 'BREAKING NEWS' ❗

👀 What do you notice about how this headline is designed?

I see...

💭 Why do you think it uses big letters and exclamation marks?

I think...

🤔 What questions would you ask before believing it?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why do adverts use famous people?
- [ ] How can I tell if a news story is true?
- [ ] Who pays for adverts?
- [ ] Why do adverts for toys appear during cartoons?
- [ ] What is the difference between a fact and an opinion?
- [ ] How do apps keep us watching?
- [ ] Why do some photos in adverts look perfect?
- [ ] What is fake news and why does it spread?
- [ ] How do the same events get reported differently?
- [ ] How can I make a message that persuades fairly?

💬 My own question

Starters: I wonder why... · I wonder how... · What if...? · How do we know...?

---

2 🔍 Finding Out: picture words

📺
media
TV, websites and newspapers are types of media.

📢
advertisement
An advertisement tries to sell a product.

🗣️
persuade
To persuade means to try to change someone's mind.

👥
audience
The target audience is the group a message is aimed at.

💬
slogan
A slogan is a short, catchy phrase.

✅
fact
A fact can be proven true.

💭
opinion
An opinion is what someone thinks or feels.

⚖️
bias
Bias means showing only one side.

🔗
source
Check the source to see who made the message.

🌟
endorsement
A celebrity endorsement uses a famous person to sell.

❌
misinformation
Misinformation is false information shared by mistake.

🧠
critical thinking
Critical thinking means asking questions before believing.

🧺 Sort it: Is this sentence a fact or an opinion?

Write or draw each item in the right column.

🏟️ The 2022 World Cup was held in Qatar.

🧃 This juice contains 30 g of sugar.

🎮 This is the best game ever!

🔵 Blue is the nicest colour.

👟 These shoes are so cool.

🥣 Everyone will love this cereal.

♨️ Water boils at 100°C.

🇶🇦 Doha is the capital of Qatar.

☀️ Summer is the worst season.

📅 A week has seven days.

✅ Fact	💭 Opinion

👍 True or false? Circle one.

🌐 All information online is true.	True	False
📢 Adverts are designed to persuade an audience.	True	False
💭 An opinion can be proven true for everyone.	True	False
🔗 Checking several sources helps find the truth.	True	False
🌟 Celebrity endorsements are a persuasive technique.	True	False
📸 Photos in adverts are never edited.	True	False
⚖️ Bias means showing only one side of a story.	True	False
📺 Media can inform, entertain or persuade.	True	False

🔢 Put in order: Check a news story. Number the boxes.

☐ 🔗 Check who the source is

☐ ⚖️ Compare with other sources

☐ 📰 Read the headline carefully

☐ ✅ Decide if it is reliable

🔎 Count and observe

How many adverts did we see in 30 minutes of TV?

Answer: ☐

How many used a celebrity?

🌟🌟🌟🌟🌟🌟🌟🌟🌟🌟🌟🌟

Answer: ☐

🖍️ Draw and label: Design an honest advert for a healthy snack. Label your persuasive techniques.

Word bank: slogan | target audience | image | fact | opinion | call to action | logo

✍️ Think and write

Explain how one advert tries to persuade you. Which technique does it use?

Compare how two sources report the same event. What is different and why?

What effect can misinformation have on a community? Give an example.

3 🧩 Sorting Out: Persuasive Techniques Detective

Choose an advert example. Then write it under the technique it uses.

⚽ A football star wears these boots

🎤 A famous singer loves this drink

📈 Join millions of happy users!

🏫 Everyone in your class has one

🐶 A sad puppy needs your help

👨‍👩‍👧 Make your family proud

🦷 9 out of 10 dentists agree

⚡ 50% more energy!

🌟 Celebrity	👥 Bandwagon (everyone has it)	💛 Emotion	📊 Statistics

💡 The big idea in my own words

4 🤝 Taking Action: Media Smart Citizens

- [ ] 🔎 Create a fact-checking guide for our school.
- [ ] 👩‍🏫 Teach younger students to spot persuasive tricks.
- [ ] 📰 Write a balanced news report about a school issue.
- [ ] 📢 Make an honest advert for a school event.
- [ ] 📊 Track my family's screen time and adverts for a week.
- [ ] 💚 Design a campaign for a cause I care about.

My plan: I will...

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Watch an advert with your family. Discuss: Who is it for? What technique does it use? Is it fair?

5 🪞 Reflection

Example: I used to think… adverts just tell us about products. Now I think… media messages are designed to persuade, so I ask questions.

⬅️ I used to think…

➡️ Now I think…

⚡ How the World Works: Energy: Sources, Uses and Choices

Our big idea: Energy comes from many sources. Our energy choices affect the planet.
Central idea: Energy comes from different sources, and the choices we make about energy affect the planet.

Lines of inquiry

1. Forms of energy and how energy changes from one form to another (change)
2. Renewable and non-renewable energy sources (form)
3. The effects of energy use on people and the environment (causation and responsibility)

Key concepts: Change · Causation · Responsibility
Related concepts: Transformation · Sustainability · Innovation
Learner profile: Knowledgeable · Thinkers · Principled

Approaches to learning: Research: comparing data on energy sources · Thinking: evaluating pros and cons · Self-management: monitoring energy use

1 👀 Tuning In: The Blackout Challenge

☀️ 💨 🛢️ 🔥 🔋 💡

Turn off all lights, fans and screens for ten minutes. Then show a photo of the Al Kharsaah solar power plant in Qatar and a gas platform at sea.
Teacher prompt: Ask: What could you not do without electricity? Where does our electricity come from? Which source will last longer? Why?

See – Think – Wonder 🍌 ➡️ 🏃 ➡️ 🔥 ☀️ ➡️ 🔋 ➡️ 💡

👀 What do you notice about how energy moves in these chains?

I see...

💭 What do you think happens to energy at each step?

I think...

🤔 What research questions do you have about energy?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] How does a solar panel turn sunlight into electricity?
- [ ] What happens to energy when we use it?
- [ ] How do wind turbines work?
- [ ] How much energy does air conditioning use in Qatar?
- [ ] What energy did people use before electricity?
- [ ] Why is natural gas so important to Qatar's economy?
- [ ] Why will fossil fuels run out one day?
- [ ] Why does burning fuels affect the climate?
- [ ] Can we store energy from the sun for night time?
- [ ] How do electric cars work?

💬 My own question

Starters: I wonder why... · I wonder how... · What if...? · How do we know...?

---

2 🔍 Finding Out: picture words

energy

Energy is the ability to do work or cause change.

renewable

Solar and wind are renewable; they will not run out.

non-renewable

Oil and gas are non-renewable; they will run out.

fossil fuel

Fossil fuels formed from ancient plants and animals.

solar panel

A solar panel changes sunlight into electricity.

turbine

Wind turns the blades of a turbine.

electricity

Electricity flows through wires to our homes.

circuit

A circuit is a complete path for electricity.

transform

A torch transforms chemical energy into light.

emissions

Burning fuels releases emissions into the air.

efficient

LED bulbs are more efficient than old bulbs.

sustainable

Sustainable energy meets needs without harming the future.

🧺 Sort it: Is this energy source renewable or non-renewable?

Write or draw each item in the right column.

🌊 hydro (water) · 🌋 geothermal · 🛢️ oil · ⛽ petrol · ☢️ uranium (nuclear) · 🪨 coal · 💨 wind · ☀️ solar · 🚛 diesel · ○ tidal

♻️ Renewable	🛢️ Non-renewable

👍 True or false? Circle one.

☀️ Solar energy is renewable.	True	False
🔥 Natural gas will never run out.	True	False
🇶🇦 Qatar has one of the largest natural gas reserves in the world.	True	False
🔄 Energy can change from one form to another.	True	False
💡 A circuit with a gap still lights the bulb.	True	False
🏭 Burning fossil fuels releases carbon dioxide.	True	False
🔋 LED bulbs use more energy than old bulbs.	True	False
☀️ Al Kharsaah is a large solar power plant in Qatar.	True	False

🔢 Put in order: Sunlight to light bulb. Number the boxes.

☐ ⚡ Panel makes electricity	☐ 🔌 Electricity travels through wires	☐ ☀️ Sunlight hits a solar panel	☐ 💡 Bulb gives light

🔎 Count and observe

How many solar panels are on the roof?

Answer: ☐

How many lights were left on after school?

Answer: ☐

🖍️ Draw and label: Draw an energy-efficient home for Qatar. Label the energy-saving features.

Word bank: solar panels | shade | LED bulbs | insulation | battery | smart thermostat | windows

✍️ Think and write

Explain the cause and effect of burning fossil fuels on the climate.

Compare solar and natural gas: give one advantage and one disadvantage of each.

Research question: How much of Qatar's electricity could come from solar by 2030?

3 🧩 Sorting Out: Energy Sources Pros and Cons

Choose a statement. Then write it under the energy source it describes.

🇶🇦 works well in sunny Qatar

🌙 no power at night without batteries

⏳ reliable day and night but will run out

🏭 releases emissions when burned

🚢 Qatar's biggest export

🌬️ needs steady wind

🐦 turbines can harm birds if badly placed

🌊 often built offshore at sea

☀️ Solar	🔥 Natural gas	💨 Wind

💡 The big idea in my own words

4 🤝 Taking Action: Energy Savers

- [ ] 💡 Lead a 'switch off' team for classroom lights and screens.
- [ ] ☀️ Build a solar oven and test it in the playground.
- [ ] ❄️ Persuade my family to set the AC to 24°C.
- [ ] 🏠 Do a home energy audit and suggest three changes.
- [ ] 📊 Make a presentation for the principal about solar panels.
- [ ] 🔋 Collect used batteries for safe recycling.

My plan: I will…

_____

_____

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** List every device that uses electricity at home. Which ones could be switched off more often?

5 🪞 Reflection

Example: I used to think… electricity just comes from the wall. Now I think… energy comes from sources, and our choices affect the planet.

⬅️ I used to think…

➡️ Now I think…

🏛️ How We Organize Ourselves: Rules, Laws and Leadership

Our big idea: Groups need leaders, rules and laws to make fair decisions and live together.

Central idea: Communities create systems of leadership, rules and laws to make decisions and live together fairly.

Lines of inquiry

1. Why communities need rules and laws (function)
2. How different groups make decisions: voting, consultation and leadership (form)
3. How citizens, including children, can take part in decisions (responsibility)

Key concepts: Function · Form · Responsibility

Related concepts: Governance · Citizenship · Fairness

Learner profile: Principled · Communicators · Thinkers

Approaches to learning: Social: reaching agreement in a group · Thinking: weighing consequences of rules · Communication: presenting an argument to a council

1 👀 Tuning In: Island Survival

The class is stranded on an imaginary island. There is limited food, one shelter and one boat. Groups must decide: Who leads? What rules do we need? What happens if someone breaks a rule?

Teacher prompt: Ask: How did your group decide? Was it fair to everyone? What problems happened when there were no rules?

See – Think – Wonder 🗳️ 🧒🧒🧒 ✋✋✋

👀 What do you notice is happening in this class vote?

I see...

💭 Why do you think voting is used to make some decisions?

I think...

🤔 What questions do you have about how decisions are made?

I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] What is the difference between a rule and a law?
- [ ] Who makes laws in Qatar?
- [ ] What does the Shura Council do?
- [ ] Why do some countries vote for leaders?
- [ ] What makes a good leader?
- [ ] What happens if a law is unfair?
- [ ] How can children have a say in decisions?
- [ ] Why do schools have student councils?
- [ ] Are rules the same in every country?
- [ ] What would happen if there were no traffic laws?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

📋
rule
A rule guides behaviour in a group, like a school.

⚖️
law
A law is an official rule for a whole country.

🏛️
government
The government runs the country and provides services.

🧑
citizen
A citizen is a member of a country or community.

🗳️
vote
We vote to choose our class representative.

👥
council
A council is a group that meets to make decisions.

🗣️
consultation
Consultation means asking people for their views before deciding.

➡️
consequence
A consequence is what happens because of an action.

🧭
leader
A good leader listens and acts fairly.

✋
democracy
In a democracy, people vote to make decisions.

📜
constitution
A constitution sets out the main laws of a country.

🤝
fairness
Fairness means decisions consider everyone.

🧺 Sort it: Is this a school rule or a national law?

Write or draw each item in the right column.

🚶 walk in the corridors | 📝 hand in homework on time | 🚗 wear a seatbelt in a car | 🎓 children must receive an education | 🦌 protect endangered animals | 🚭 do not litter in public | 👕 wear the school uniform | ✋ raise your hand to speak | 🪪 drivers need a licence | 📵 no phones in class

🏫 School rule	⚖️ National law

👍 True or false? Circle one.

⚖️ Laws apply to everyone in a country.	True	False
📋 Rules and laws are exactly the same thing.	True	False
🗳️ Voting is one way to make group decisions.	True	False
🏛️ Qatar's Shura Council helps review laws and give advice.	True	False
🙈 A good leader never listens to others.	True	False
🗣️ Consultation means asking people's views before deciding.	True	False
👥 Children can take part in decisions through student councils.	True	False
📜 Laws can never be changed.	True	False

🔢 Put in order: Make a class decision. Number the boxes.

☐ 🗣️ Share and listen to ideas

☐ 🗳️ Vote or agree together

☐ ❓ Identify the problem

☐ 🔁 Review if it worked

🔎 Count and observe

How many votes did the winner get?

Answer: ☐

How many hands are raised for the new rule?

Answer: ☐

🖍️ Draw and label: Design a new rule for your school. Draw a poster and label the rule, reason and consequence.

Word bank: rule | reason | consequence | fairness | vote | leader

✍️ Think and write

Explain the difference between a rule and a law with examples.

What would be the effects of having no traffic laws? List three.

Compare voting and consultation as ways to decide. Which is better for a class decision? Why?

3 🧩 Sorting Out: Rule Evaluation Chart

Choose a statement about a 'no running inside' rule. Then write it under the right box.

🩹 to prevent injuries | 😌 to keep corridors calm | 🧒 all students | 👩‍🏫 teachers and visitors | 🩺 the school nurse | 🚶 a reminder to walk | 📉 fewer accidents | 🔁 practise walking at break

🎯 Purpose (why)	👥 Who it affects	➡️ Consequence

💡 The big idea in my own words

4 🤝 Taking Action: Active Citizens

- [ ] 💡 Propose a new idea to the student council.
- [ ] 🗳️ Run a fair class election with secret ballots.
- [ ] 📊 Survey students about a school issue and present results.
- [ ] 📜 Rewrite our class agreement with everyone's input.
- [ ] ✉️ Write a letter to the municipality about a local issue.
- [ ] 🚦 Create a guide on road safety laws for younger students.

My plan: I will...

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** Ask your family: What rules do we have at home? Who made them and why? Would you change one?

5 🪞 Reflection

Example: I used to think… rules are there to stop fun. Now I think… rules and laws help communities live fairly, and citizens can help shape them.

⬅️ I used to think…

➡️ Now I think…

How do I feel about this unit? Circle one.

3. 🗣️ Consultation means... ☐ ignoring others ☐ asking for views before deciding ☐ deciding alone

How sure do I feel? 😟 I need help · 🙂 Getting there · 😀 I know it · 🤩 I can teach a friend

🌿 Sharing the Planet: Ecosystems in Balance

Our big idea: In an ecosystem, living things depend on each other. People can harm or help the balance.

Central idea: Living things in an ecosystem depend on each other, and human actions can upset or restore the balance.

Lines of inquiry

1. How energy flows through food chains and food webs (connection)
2. How changes to one part of an ecosystem affect the others (causation)
3. How people can protect and restore ecosystems such as Qatar's mangroves and reefs (responsibility)

Key concepts: Connection · Causation · Responsibility

Related concepts: Interdependence · Biodiversity · Sustainability

Learner profile: Caring · Inquirers · Thinkers

Approaches to learning: Research: field observation and data recording · Thinking: predicting effects of change in a food web · Communication: presenting solutions with evidence

1 👀 Tuning In: The Web of Life

🌿 🦀 🐟 🦩 🌊 🛢️

Each child holds a card (sun, seagrass, dugong, shrimp, fish, heron, mangrove). Pass a ball of string to connect who eats whom. Then cut one string: the seagrass is lost to pollution.

Teacher prompt: Ask: What happened to the web when one part was removed? Who was affected first? Who was affected later? How could we repair it?

See – Think – Wonder 🌳🦀🐟 (mangrove) ➡️ 🏗️🚧 (construction)

👀 What do you notice changing in these two pictures?	💭 What do you think will happen to the animals that lived there?	🤔 What questions would you research about this change?
I see...	I think...	I wonder...

❓ Curiosity questions: tick the ones you wonder about too

- [ ] Why are mangroves important for fish and birds?
- [ ] What would happen if all the predators disappeared?
- [ ] How do coral reefs survive in the hot Gulf?
- [ ] What is the role of decomposers?
- [ ] How does plastic enter the food chain?
- [ ] Why is biodiversity important?
- [ ] How did the Arabian oryx come back from near extinction?
- [ ] How do invasive species upset an ecosystem?
- [ ] How does climate change affect ecosystems in Qatar?
- [ ] Can a damaged ecosystem be restored?

💬 My own question

Starters: I wonder why… · I wonder how… · What if…? · How do we know…?

---

2 🔍 Finding Out: picture words

ecosystem

An ecosystem is living and non-living things interacting in one place.

producer

Plants are producers; they make food using sunlight.

consumer

Animals are consumers; they eat other living things.

decomposer

Decomposers break down dead things into nutrients.

predator

A falcon is a predator that hunts other animals.

prey

Prey animals are hunted by predators.

food web

A food web shows many connected food chains.

biodiversity

Biodiversity is the variety of life in an area.

mangrove

Mangroves at Al Thakhira shelter young fish.

habitat loss

Habitat loss happens when land is cleared.

conservation

Conservation protected the Arabian oryx.

pollution

Pollution can poison plants and animals.

🧺 Sort it: Is this a producer or a consumer?

Write or draw each item in the right column.

🟢 algae · 🌴 date palm · 🦭 dugong · 🦩 flamingo · 🦈 shark · 🦀 crab · 🌳 mangrove tree · 🌿 seagrass · 🦌 oryx · 🌾 desert grass

🌱 Producer	🐟 Consumer

👍 True or false? Circle one.

☀️ Energy in a food chain starts with the sun.	True	False
🌱 Producers eat other animals.	True	False
🕸️ Removing one species can affect a whole food web.	True	False
🌳 Mangroves provide shelter for young fish.	True	False
🍄 Decomposers are not important.	True	False
🦌 The Arabian oryx was saved from extinction by conservation.	True	False
🧴 Plastic in the sea can enter the food chain.	True	False
🦋 Higher biodiversity usually makes an ecosystem weaker.	True	False

🔢 Put in order: A Gulf food chain. Number the boxes.

☐ 🪿 Heron (top predator)

☐ 🌿 Seagrass (producer)

☐ 🐟 Fish

☐ ☀️ Sun

☐ 🦐 Shrimp (consumer)

🔎 Count and observe

How many flamingos were counted at the lagoon?

Answer: ☐

How many crabs in the mangrove survey?

Answer: ☐

🖍️ Draw and label: Draw a food web for Qatar's mangroves or desert. Use arrows to show energy flow and label each role.

Word bank: sun | producer | consumer | predator | prey | decomposer | energy arrow

✍️ Think and write

Explain what would happen to a food web if all the predators were removed.

Compare a mangrove ecosystem and a desert ecosystem. What connects them?

Research question: How are Qatar's mangroves being protected?

3 🧩 Sorting Out: Food Web Roles Chart

Choose an organism. Then write it under its main role in the ecosystem.

🌿 seagrass · 🌳 mangrove · 🦭 dugong · 🐢 green turtle · 🦅 falcon · 🐟 barracuda · 🍄 fungi · 🦠 bacteria

🌱 Producer	🦭 Herbivore	🦅 Predator	🍄 Decomposer

💡 The big idea in my own words

4 🤝 Taking Action: Ecosystem Protectors

☐ 🏖️ Join or organise a mangrove or beach clean-up.

☐ 🧴 Start a single-use plastic reduction campaign.

☐ ✉️ Write to a local organisation about protecting seagrass.

☐ 🌱 Plant native plants in the school garden to support insects.

☐ 📋 Create a biodiversity survey of our school grounds.

☐ 🎬 Make a short documentary about the oryx's comeback.

My plan: I will…

_____

Where? ☐ 🏠 Home ☐ 🏫 School ☐ 🌳 Community

Draw yourself taking action.

🏠 **Home link:** With your family, find one way to reduce plastic waste this week and track it.

5 🪞 Reflection

Example: I used to think… each animal lives on its own. Now I think… everything in an ecosystem is connected, and our actions matter.

⬅️ I used to think…

➡️ Now I think…
